Lucas Morgan

Renewable Energy Engineer

lucas.morgan@example.com | +1 202 555 0117 | Boulder, Colorado

Professional Summary

Renewable energy engineer with five years of experience evaluating solar and battery projects from feasibility through commissioning.

Skills

Solar design, Battery storage, AutoCAD, PVsyst, Energy modeling

Experience

Renewable Energy Engineer

High Plains Power | 2021 to Present

- Designed utility-scale solar layouts and energy-yield models for project bids.
- Supported commissioning tests for 40 megawatt-hours of battery storage.

Education

Bachelor of Science in Electrical Engineering, Front Range University, 2021
